

CHANDRESH PATIDAR

Senior Frontend Engineer | React & Next.js | TypeScript | 5+ Years

Email: chandreshk7722@gmail.com | GitHub: [chandreshpatidar](https://github.com/chandreshpatidar) | LinkedIn: linkedin.com/in/chandresh-patidar/

Professional Summary

Frontend Engineer with 5 years of experience building modern, scalable, performance-optimized web applications using **React, Next.js, Svelte, and SvelteKit**. Skilled in **state management** (Redux, Redux Thunk, Redux Saga, Zustand), **UI frameworks** (Tailwind CSS, Material UI, **Ant Design**, Reshaped), and **REST/GraphQL API integrations**. Strong hands-on experience with **micro-frontends**, **Bit.dev component systems**, **FaunaDB**, **Firebase**, and performance-focused development. Proficient in **test automation** using Cypress, TestCafe, Jest, and RTL. Known for writing clean, maintainable code, improving UI/UX quality, and collaborating effectively in agile teams to deliver reliable and user-focused features.

Technical Skills

- **Frontend:** React, Next.js, Svelte.js, SvelteKit, GraphQL, HTML, CSS, REST API, Integration, Micro-Frontends, SonarCloud
- **Backend:** Node.JS, Express.JS
- **React Libraries:** Redux, Redux Thunk, Redux Saga, Zustand, Material UI, Reshaped, Reactstrap, Ant design, Tailwind CSS, Axios, Fetch, Recharts, React-table, Eslint, Prettier
- **Database:** FaunaDB, Firebase Firestore DB, Vercel Blob
- **Testing:** Browser automation testing using Cypress and **Testcafe**, unit tests using Jest, React Testing Library
- **Other** Rest API integrations, Monolithic & Micro-frontends, Bit.dev, Agile Methodology
- **Tools:** Git, Github, Gitlab, Bitbucket, Atlassian tools - Jira, Figma, Slack, Microsoft Teams, Discord, ClickUp, Microsoft Teams
- **Performance:** Code Splitting, Lazy Loading, Web Vitals, Performance Optimization

Projects

Mercanis

Technologies: React.js, Svelte.js, SvelteKit, Next.js, TypeScript, Tailwind CSS, REST APIs, Claude AI Integration

- Developed scalable frontend features for a procurement platform involving complex workflows
- Collaborated in requirement gathering and sprint planning as part of an agile team, contributing to efficient feature delivery
- Built intuitive UI components to help users analyze critical procurement data and make informed decisions.
- Integrated AI capabilities into the development lifecycle to enhance insights and automate processes
- Optimized frontend performance using modern techniques, improving responsiveness and overall user experience

Dechea

Technologies: SvelteKit, Svelte, Next.js, React, GraphQL, Skeleton.dev, Tailwind CSS, Shadcn, FaunaDB, Vercel

- Built a detailed patient file management system that allows easy tracking and updating of patient information
- Helped design and implement an interactive teeth diagram to visually collect and display oral health details.
- Conducted proofs-of-concept to evaluate and select component libraries compatible with Tailwind CSS
- Customised the Shadcn component library so it could seamlessly support Skeleton.dev themes and design styles.
- Built reusable Svelte applications, including a FaunaDB migrator, schema designer, and lightweight CMS

Technologies: Next.js, React, Tailwind css, Recharts, formik

- Worked on improving the application’s performance and structure to handle large user traffic smoothly.
- Redesigned the health-tracking user experience to make it more intuitive and engaging for users.
- Developed a clean and responsive interface that enhanced the overall user experience and made the platform easier to navigate.
- Collaborated with the team to build reusable components, charts, and forms that improved development efficiency.
- Contributed to frontend improvements that supported better user interaction and long-term engagement.

Experience

Mercanis

Feb 2025 – Present

Frontend Engineer

Remote

- Built and optimized scalable, high-performance user interfaces using React.js and TypeScript, improving application responsiveness and user experience
- Collaborated closely with product, design, and backend teams to deliver end-to-end features in an agile environment
- Developed reusable component libraries and implemented modern UI practices to ensure consistency and maintainability across the platform
- Integrated REST APIs and handled complex state management, ensuring seamless data flow and efficient frontend architecture
- Implemented performance optimization techniques such as code splitting and lazy loading, improving load time and responsiveness

Dechea

Jan 2023 – Jan 2025

Frontend Engineer

Remote

- Took the lead in introducing new tools, libraries, and technologies that made the development process smoother and more efficient.
- Improved overall code quality by following clean coding practices and helping the team adopt better development standards.
- Designed and added browser automation test cases into the pipeline to catch issues early and reduce production bugs.
- Worked closely with the product owner and scrum master to clearly understand requirements and plan tasks effectively.
- Helped improve sprint planning and backlog management by giving technical input and suggesting better workflow approaches.

Appnosys Infotech

Oct 2020 - Dec 2022

Frontend Engineer

Remote

- Developed and maintained user-facing features using React, improving user engagement and overall application usability.
- Implemented responsive design using modern CSS frameworks, enhancing mobile experience and cross-device compatibility.
- Collaborated closely with UI/UX designers to convert wireframes into high-quality, production-ready code, reducing development time.
- Optimized frontend performance by improving data handling and rendering efficiency, resulting in faster load times.
- Built reusable components and shared libraries, increasing code reusability and speeding up development across projects.

Education

Bachelor of Engineering (B.E.) in Computer Science

Aug 2016 - May 2020

Chameli Devi Institute of Technology and Management

Awards

- **5+ Open-source** contributions on GitHub
- **HackerRank**: 4 🌟 (Silver Badge in Problem Solving)

Certifications

- [JavaScript Basic & JavaScript Intermediate](#)
- [Frontend Developer \(React\) Certificate](#)
- [Node \(Basic\) Certificate](#)
- [CSS](#)
